Application/Control Number: 09/831,462

Art Unit: 1761

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

- 2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 3. Claims 6, 8-16 and 49 are rejected under 35 U.S.C. 102(b) as being anticipated by Gaffar et al (4,808,401).

Applicant referred to the reasoning set forth in paragraph Nos. 6 and 7 in the November 28, 2003 Office Action.

4. Claims 7, 17, 26-48 and 50 are rejected under 35 U.S.C. 103(a) as being unpatentable over Gaffar et al (4,808,401).

Applicant is referred to paragraph No. 8 in the November 8, 2003 Office Action.

5. Applicant's arguments filed January 23 and March 4, 2004 have been fully considered but they are not persuasive. Each of applicant's claimed surface conditioning effects and/or benefits inherently occur when an individual chews the gum of Gaffar et al since a polymeric surfactant, as claimed by applicant, is present therein.

Application/Control Number: 09/831,462

Art Unit: 1761

Each result which occurs upon an individual chewing the claimed gem is merely an observation of another beneficial result in an old process, which cannot form the basis of patentability (Allen v. Coe 57USPQ136 and In re Jones 1941CD 686).

Applicant's contention, that the instant claims do not require the additional components used in the chewing gum of Gaffar et al, is without merit since applicant's claims are not so limited as to preclude such components.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

7. Any inquiry concerning this communication from the examiner should be directed to Arthur L. Corbin whose telephone number is (571) 272-1399. The examiner can generally be reached on Monday-Friday from 10:30am to 8pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Milton Cano can be reached on (571) 272-1398. The fax phone number for the organization where this application is assigned is (703) 872-9306.
